

DAMG6210 Project – Food Bank

Public URL:

https://github.com/natnicha-lerdwanawattana/DAMG6210_FoodBank/blob/main/README.md

Mission Statement:

The project aims to efficiently and effectively manage a food bank system, managing supplies and funds from donors and sponsors, and tracking the number of recipients to meet the needs of the local community and fight hunger.

Objectives:

1. Donation and Sponsorship Tracking
 - Record food and fund donations from donors and sponsors
 - Generate a time report of the donations and their sources
2. Supply Tracking
 - Record and monitor an inventory of food ingredients and other necessary supplies
 - Generate a time report of the inventory to ensure the demands are met
3. Recipient Tracking
 - Record the number of recipients coming to the food bank to establish the demands for supply management
